

Capacitor Symbols / Electrical Condensers [[Go to Website](#)]

 <p>Capacitor Electrical condenser Not polarized capacitor Generic symbol</p>	 <p>Capacitor Electrical condenser</p>	 <p>Capacitor</p>	 <p>Capacitor</p>
 <p>Armor capacitor</p>	 <p>Capacitor with characterization of the outer layer</p>	 <p>Through capacitor</p>	 <p>Capacitor with resistors in series</p>
 <p>Condenser with power connector</p>	 <p>Supply capacitor</p>	 <p>Bipolar electrolytic capacitor</p>	

All Electrical & Electronic Symbols in <https://www.electrical-symbols.com>

Symbols Polarized Capacitors [[Go to Website](#)]

 <p>Polarized capacitor Electrolytic capacitor</p>	 <p>Polarized capacitor Electrolytic capacitor</p>	 <p>Polarized capacitor</p>	 <p>Electrolytic capacitor</p>
 <p>Electrolytic capacitor</p>	 <p>Multiple electrolytic capacitor</p>	 <p>Capacitor sensible to voltage</p>	 <p>Capacitor sensible to temperature</p>

All Electrical & Electronic Symbols in <https://www.electrical-symbols.com>

Symbols Variable & Adjustable Capacitors [[Go to Website](#)]

 <p>Variable capacitor</p>	 <p>Variable capacitor</p>	 <p>Preset capacitor Trimmer</p>	 <p>Capacitors variables grouped</p>
 <p>Differential capacitor</p>	 <p>Divided stator capacitor Split stator</p>	 <p>Dual variable capacitor Butterfly capacitor</p>
