

Symbols of Electrical Junction Boxes [[Go to Website](#)]

 <p>Junction Box Pattress Box Derivation Generic symbol</p>	 <p>Junction Box Pattress Box Derivation</p>	 <p>Junction Box Pattress Box Derivation</p>	 <p>Junction Box Pattress Box Derivation</p>
 <p>Junction box e.g. three-wire shunt</p>	 <p>Junction box e.g. three conductors</p>	 <p>Junction box e.g. three-wire shunt Single line representation</p>	 <p>Junction box e.g. three-wire shunt Single line representation</p>
 <p>Containment voltage cable light e.g. three wires</p>	 <p>Cable ends sealed e.g. pole cable</p>	 <p>Cable ends sealed e.g. three unipolar wires</p>	 <p>Distribution center Distribution board e.g. Representation with five wired</p>
 <p>Electrical enclosure outside cabin</p>	 <p>Electrical enclosure Outside cabin e.g. Amplification</p>	 <p>Distribution center Electric panel e.g. Representation with five wired</p>	 <p>General protection box Fuse box</p>
 <p>Inlet box Consumer terminal Consumer unit e.g. Single line representation wired</p>	 <p>Electrical box Register</p>	 <p>Step box</p>	 <p>Electrical box Register</p>
 <p>Connections box Pattress</p>
