

Symbol of Switches, Push-buttons, Circuit Switches ... [[Go to Website](#)]

 Open switch Generic symbol	 Closed switch	 Switch with delayed opening	 Switch with delayed opening and closing
 Switch with delayed opening	 Switch delay when opening and closing	 Double switch bipolar	 Double Switch bipolar One closes before the other
 Limit switch	 Double limit switch When one closes another opens	 Float switch Level switch fluid	 Thermal switch
 Open thermal switch	 Closed thermal switch	 Time switch Timer	 Differential switch
 Thermal magnetic switch	 Limiter	 Electronic limiter	 Switch with neon lamp incorporated
 DIP (Dual In-line Package) Encapsulated switches	 DIP encapsulated switches e.g. 3 switches	 Mercury switch Inclination or motion detector	 Starter

Circuit Switch Symbols [[Go to Website](#)]

 <p>Switch, SDPT (A pole double throw) Generic symbol</p>	 <p>Switch, SDPT (A pole double throw)</p>	 <p>Slide switch, SDPT</p>	 <p>Double Switch, DPDT (Double pole double throw)</p>
 <p>Double Switch, DPDT (Double pole double throw)</p>	 <p>Multi-switch</p>	 <p>Multi-switch</p>	 <p>Multi-switch</p>
 <p>Rotary switch Rotating multi-switch</p>	 <p>Rotating multi-switch</p>	 <p>Multi-switch</p>	 <p>Multi-switch</p>

All Electrical & Electronic Symbols in <https://www.electrical-symbols.com>

Push-buttons / Push Switch Symbols [[Go to Website](#)]

 <p>Open Push-button Pushbutton</p>	 <p>Closed push-button Pushbutton</p>	 <p>Open Pushbutton</p>	 <p>Closed pushbutton</p>
 <p>Pushbutton limit switch</p>	 <p>Telegraph key</p>	 <p>Double limit switch pushbutton One closes and another opens</p>	 <p>Joystick</p>
 <p>Pushbutton circuit switch</p>	 <p>Double pushbutton One closes and another opens</p>

Symbols of Switches of Two and Three Positions [\[Go to Website \]](#)

 <p>switch Closing or work contact Generic symbol</p>	 <p>switch Closing or work contact</p>	 <p>Opening or resting contact</p>	 <p>Inverter switch before closing</p>
 <p>Inverter switch with intermediate cutting position</p>	 <p>Inverter switch before opening</p>	 <p>Double closing contact</p>	 <p>Inverter switch before opening</p>
 <p>Double opening contact</p>	 <p>Circuit switch Cutting contact before making contact</p>		

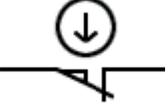

Disconnectors / Unipolar Switch Symbols [[Go to Website](#)]

 <p>Disconnectors manual contact Generic symbol</p>	 <p>Disconnectors open pushbutton With automatic return after closure</p>	 <p>Open rotating contact Without automatic return after closure</p>	 <p>Contact close pushbutton With automatic return after opening</p>
 <p>Close rotating contact Without automatic return after opening</p>	 <p>Contact Squeegee switch With automatic locking and return</p>	 <p>Pushbutton with mushroom head With positive operation of opening contact and fixed position</p>	 <p>Contact Open pushbutton Positive contact operation</p>
